BAMBOO COLLECTION

BAMBOO BATH & SPA

This collection places the bamboo shape in various orientations as it is cut and shaped to fit the many functions.

Not diverging too much from nature, this collection is available in three glaze finishes that is consistent with bamboo in growth.

All the items including a tissue box, soap dish, shampoo and conditioner dispensers, toothbrush cup and cotton bud container, fit nicely onto a bamboo tray.

BAMBOO JUG

This collection is inspired from the shapes of cups and jugs used for the Indonesian tradition of drinking 'tuak' and stand as bamboo in their shape and function.

The glaze finishes diversity with four different colors to mix and match with the large jug and individual cups
