JENGGALA™

BUFFET COLLECTIONS

Transport your guests to exotic locations or make them feel like at home with Jenggala's wide variety of Buffet Collections. The issue with many restaurant buffet presentations is the standard, generic choices of most food display equipment. Jenggala brings our expansive selection of shapes and range of glaze finishes to the world of buffet display and gives you customized options. With Jenggala's products the buffet set up will fit with the station menu.

The customers will see the flavors with their eyes and be interested to experience food from other parts of the world. The diverse textures and colors from Jenggala will give the buffet arrangement a connection to tones and architectural features utilized for the décor of the outlet, so the guests will know they are in a truly unique and incorporated dining concept down to the last detail.
