

CORALINE  
COLLECTION

JENGGALA™

## CORALINE COLLECTION

# CORALINE COLLECTION

As nature continues to inspire Jenggala, we have recently ventured into the realm of her color effects and depth with the new Coraline Collection.

Considering Jenggala's close proximity to the famous beaches of Bali we didn't have to travel far to experience the influence of the island's wonderful sea coral. As the glaze is applied by hand and left to nature's forces in our kilns,

this collection allows each piece to mirror nature as the glaze effect melds the glossy, earthy brown glaze into the golden varied sandy glaze. This fusion creates an added form onto the ceramic shape, delivering new hues of color that are a visual delight. With an emphasis on the decorative, each piece of the Coraline Collection is a unique, one of a kind, handmade piece.
