

CRINKLE COLLECTION

JENGGALA™

CRINCKLE COLLECTION

With a stylish and humorous pop art style, the Crinkle Cup Collection makes a statement about the disposable tendencies of our culture. Initially Jenggala launched this popular design in a medium water glass size, but now the collection has rounded out with a large drink glass and smaller sake or shot glass size. Add these conversation pieces to your tabletop and make a statement on the reusable nature of ceramic compared to all the throwaway products we see in our world every day.
