

THE DULANG

COLLECTION

JENGGALA™

THE DULANG COLLECTION

The Dulang is a platter mounted on a pedestal that has traditionally been used throughout the islands of Indonesia to hold offerings and as serving dishes for meals. Originally made of wood, the Dulang is often painted in dark hues of brown, auburn or black and further decorated with carvings, brightly coloured hand-painted patterns, and at times even embellished with silver, gold, and gemstones.

Taking inspiration from the traditional form of the Dulang, Jenggala creates a functional collection for homes throughout Indonesia and the rest of the world. Comprising of appetizer plates, dinner plates, dessert plates, rice bowls, soup bowls, sauce dishes, and a cake étagère, the Dulang collection will be available in two neutral tones – Cream Kahala and Lisbon Terracotta.
