FRANGIPANI COLLECTION

Reimagined by Lukas Easton

The classic frangipani is integral to Jenggala's heritage. One of our very first designs, our classic frangipani collection is undoubtedly the most recognisable representation of our identity. The source of inspiration itself (the frangipani flower) symbolises Bali's rich cultural, animistic and ecological character; from its natural beauty to its pivotal role in rituals and ceremonies.

Visiting ceramic artist Lukas Easton spent months reimagining this iconic collection. With a new perspective, Lukas took to studying the frangipani plant and flower as a tangible and realistic subject, stripping down its ingrained stylistic imagery. The outcome is a refined collection with intricately elegant details. Catering towards family-style meals the Frangipani by Lukas places an emphasis on elegant presentation for a variety of serving sizes. The collection is available in 2 different shades/ glazes; forest green and pale turquoise, both in high gloss further highlighting its refined engravings

Dinner Plate
