

# JATI

COLLECTION

## JATI COLLECTION

Tune in to yourself and connect with nature...where you can just be you. This new collection of dinnerware and drinkware is not merely a tribute to a type of wood but rather represents the true self. Revealed in the smooth white surface is wood like textures, with the irregular form of cambium and subtle rustic tones.

Combine three different glazes in this collection to suit yourself and complement them with the washed-dark gray hue place mat for more grounding nuance. This collection a collaboration with Jesika K.Tirtanimala, an Indonesian ceramic designer.
