## COLLECTION

# RANTANG COLLECTION

The Rantang Set is now in stock at Jenggala's retail outlets. This unique version of a tiffin set is a practical way to carry stacked containers of food. The containers keep the various types of food separated, yet easy to carry and ready to enjoy. The Rantang is generally a plastic or metal generic type container, but Jenggala has given the Rantang new life and style by creating it in ceramic and wood.

Formed with a body of a natural buff ceramic material, the Jenggala Rantang uses teakwood for its wooden rack. The set consists of; 2 smaller dishes with a capacity of 250ml and 1 bigger container that has a capacity of 330ml. The wooden rack locks the dishes into a stacking position and doubles as a handle for the set, ready to carry your meal to wherever you desire.
