SAMUDRA COLLECTION

Indonesia being an archipelago of over 17,000 islands the ocean is an integral part of the life and many cultures of this vast country. Island life requires adapting to living near and on the ocean, with all its changing moods, for travel, food and making a living. The many cultures of Indonesia are full of myths and legends of gods, goddesses and mysterious creatures living in the vast seas surrounding the many islands of this country.

Jenggala with our respect and awe of beautiful oceans has created the Samudra Collection with inspiration from this liquid world. The carved motif adorning this range is based on the Kamasan Bali painting style and captures waves mixed with varied coral life. The colors selected for launching the Samudra Collection are from the many hues of green and blue reflected in the tropical seas of our island home.
