

# WAX RESIST

## COLLECTION

## WAX RESIST COLLECTION

Ceramic artists have many techniques and utilize a wide variety of materials to create textures and glaze effects. Jenggala has featured the Wax Resist technique in a collection of functional items that draws attention with the transition zone of the glaze to a dark matte engobe finish.

As the glaze thins and becomes dabbed along an edge with an obvious human touch to each form. Intriguing as the color gradually ends and contrasts to the dark palette of the exposed clay. This effect available on any of Jenggala's shapes takes the hand of the artist to tabletop products.

## WAX RESIST COLLECTION

---

**Sate Grill**  
CO0959  
15 x 15 x 12.5 cm

**Wooden Base for Sate Grill**
